DIAMOND

DIAMOND Line racks offer our customers the exciting option of customizing the appearance of the racks to match their corporate logo and color scheme. This high-end product can be made to meet the most exacting specifications. Doors are laser etched and cut in the shape chosen, then powder coated in one of a rainbow of colors. When appearance plays a role hand-in-hand with functionality, Exclusive Line racks are the answer.

DIAMOND Line racks include the following features:

- Sleek cable management design—two full-length data channels (one on each side) with snap closure doors are standard sliding data management channels are optional
- Front and rear doors are reversible—allowing you to choose whether cable management is in the front or back of the rack door has a triple locking mechanism for added security, with a padded handle
- Design your own personal front door or choose from one of our exciting options
- Side panels have snap closures and locks, providing four-way access to equipment
- Multiple cable entry points provide maximum versatility. There are two brush openings on the bottom, one sliding access panel on the bottom, and a brush entry on the rear panel that can be positioned on top or bottom
- Frames are made with a 24-fold design for increased stability
- Vented top panel
- Leveling feet as a standard feature
- Adjustable front and back mounting rails allow for flexible configurations
- Available in a rainbow of colors or select your own custom color
