

Sx Range (Server Cabinets)

The Sx Range of cabinets offer our customers the exciting option of customizing the appearance of the track to match their corporate logo and color scheme. This high-end product can be made to meet the most exacting specifications. Doors are laser etched and cut in the shape chosen, then powder coated in one of a rainbow of colors. When appearance plays a role hand-in-hand with functionality.

Available in black, light blue, light gray, red, stainless steel front rounded metal grillwork

Sx Range (Server Cabinets)

FEATURES

• Easy to access

Front door

It is with two (2) options.

1-Perforated sheet steel reinforced with complete metal frame, rounded provide perfect air-conditioning of the cabinet with turning lever lock and three point locking.

2-Full-length Perspex door reinforced with metal frame integral locking mechanism and three point locking. Side edges are perforated for excellent air-conditioning.

Side Doors; lockable, removable complete with slam latches and locks.

Rear Door; lockable, removable with lock. Rear door is vented for perfect air-conditioning. Secure, locking front and back doors with spring loaded hinges offer best accessibility even when connecting the cabinets. The door hinge is easily swapped from one side to the other. All giving you 4-way access to equipment. Front and rear door can be replaced that gives you flexibility for different installations.

• Cable access

Multiple cable entry points provide maximum versatility. There is a brush on the rear panel that can be positioned on top or bottom (brush entry available on racks of 36U and above)

• Construction

Rigid welded frame construction in steel sheet rapidly dismantled per 4 screw per corner. Corner of bases have welded sockets on each corner that tightly fixed into the columns gives maximum stability.

Frames are made with 24-fold design for increased stability.

Vented top cover with built-in space for available top mount cooling system. Besides that, it causes a chimney effect to provide passive transportation via convection.

19" mounting angles (front/2ea. And back/2ea) allow for flexible configuration and adjustable in depth.

C-rails (3ea.left +3ea.right) increase the stability of equipment mounting and fixing shelves in 4 points.

Leveling feet is included as a standard feature.

Extensive range of **accessories**.

Sx Range (Server Cabinets)

Sx Range

Multi-Vendor Server Rack

The Sx Range server racks are suitable for office equipment room and computer room installation. Complete Range of Dimensions

Width=600mm. Depth=1000mm.42U

Width=600mm. Depth=1000mm.36U

Width=600mm. Depth=1000mm.26U

Width=800mm. Depth=1000mm.42U

- 800kg. Load capacity
- Infinitely adjustable rails *Generous cable access
- Easy mounting, fast assembly
- Sturdy steel construction
- Excellent cooling performance and optimal ventilation to deliver thermal protection.
- Standard drawable balancing bars against tilt.

Sx Range server cabinets are an exceptionally rugged and strong cabinet enabling it to be used for server system applications.

The Sx Range is highly-configurable to the end-users requirements and provides unique features to benefit system designers, installers and network managers. Can be delivered as a single enclosure with side panels or as a side by side cabinet with no side panels.

The rigidly welded frame construction can be dismantled and assembles easily without any special tools. Thus, narrow doors, staircases and lifts are no problem.
